

LOBA® WaxCleaner

Product description

Highly concentrated pH-neutral wipe care product especially for oiled and waxed wood and cork floors. Cleans and protects in one step.

Range of Use

Maintenance cleaner and maintenance care for all oiled and waxed wood and cork floors.

Features

- Good cleaning efficiency
- Leaves a slight waxlayer with protective effect
- Concentrate, very efficient
- pH neutral
- Reduces greying of the floors

Technical Data

Article No.	10041	Application Rate	200 - 300 ml per 10 litres of water for 100 m ² .
Package Size	10 l, 1 l	Application Tool	Wischmopp
Packing	Palett: 60 x 10 l	Thinner	Water
	Box: 12 x 1 l	Contents	Less than 5% anionic surfactants, less than 5% nonionic surfactants, less than 5% phosphonates. Further ingredients: perfume oil, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, LIMONENE 6,3
	Palett: 480 x 1 l		
Storage and Transportation	+5°C to + 25°C (41°F to 77°F), storable for 36 months, no hazardous material according to ADR	pH-value	6,3
	GISCODE	GE 10	

Preparation:

Remove loose dirt and dust in advance with a vacuum cleaner, brush or mop. For the maintenance cleaning mix approx. 200-300ml of WaxCleaner with 10l of water. In order to remove heavy soiling WaxCleaner can be dosed higher. A better protection is achieved when using LOBA® AquaWaxCare or LOBA® ParkettWax for the initial care.

Information on Use:

Damp-mop the floor with a suitable mop. Using too much water in combination with long contact time might lead to swellings of the substrate and has to be prevented.

WaxCleaner is also suitable for the use in cleaning machines. In order to prevent an excessive foam generation in the storage basin we recommend adding LOBA Entschäumer (Defoamer) as needed. By the use of a direct suction the effect of the care waxes is largely repealed.

Tip: When frequently using this product, it will form a resistant carelayer after polishing.
